

# Fishing Services

## Description

Key's extensive arsenal of fishing tools includes a wide range of equipment, from whipstocks and mills to our exclusive line of Johnston Jars and proprietary drilling tensile shear sub. Each is available with ancillary equipment, depending on situation and site needs.

### Whipstocks and Mills

### Custom Tool Machining

### KTD Shear Sub

## Description

Includes all types from flat bottom to piranha to watermelon mills.

Tools are maintained before and after use, and tools can be custom machined for special jobs.

Used in offshore applications, the KDTSS is used when sticking occurs in the drilling bottom hole assembly.
